Technical data:

Power supply:	7..16 (32) Volt, ca. 200 mA @ 13.8 V overvoltage protection, opt. 24V	
Microcontroller	Infineon SAB-C161O-LM / 16MHz	
Memory	FLASH (program) 512 kByte RAM (data) 512 kByte EEPROM 32 kByte	
Communication	1 * RS 232 1 * CAN (physical layer 82C251, max. 1 MBit/sec.)	
Key pad	9 Keys Background illumination with software control	
Display	3" monochrome graphic LCD (128x64 pixel) with LED illumination	
Beeper	High volume beeper with software loudness control	
Additional	Softwareupdate Monting	Softwareupdate update possible via PC RS232 port Optional magnet foil at back side
Mechanical	Dimension (W*H*D)	91 * 188 * 25 mm ³ (H + 51mm with cable bend protection)
	Weight	ca. 250g
	Connection	Cable with Amphenol C16-3 7pol.
	Housing	Housing made of glass fibre reinforced plastics with sealing system at all screws and the beeper
